

THE PROFESSIONAL DJ MIXER **NEW** **DJM-300-S**

Cool Style for a Cool DJ System. Silver Type for Standard DJ Mixer, Debut.

Pioneer has launched a stylish silver model of the DJM-300, a popular DJ mixer with enriched basic functions. Connecting this unit to a CDJ Performer CDJ-100S will provide cross fader operation. In addition, the Auto BPM Counter is capable of measuring the tempo of music automatically and turning it into digital indication, a feature optimal for a wide variety of remix and arrangement. The DJM-300-S, used with a CDJ-100S and DJ Effector EFX-500, will make a cool silver style CDJ system.
