Can easily be used as a main speaker

Amazing performance monitor

Se Series Speakers

Yamaha has Combined our understanding of acoustics and advanced computer-controlled woodworking to create the SE series, a line of affordable quality sound reinforcement speakers. With high-power woofers and real, dynamic compression drivers and constant directivity horns, they'll provide performance you didn't think you could afford! Heavy, steel reinforced strap handle makes transport easy. Dynamic compression driver and horn provide high performance and smooth response.

The SE Series is manufactured in the United States. The Yamaha factory in Thomaston, Georgia, uses the latest computer controlled woodworking machines. This assures the quality you have come to expect from us.

Small easy to handle size. Excellent price/performance ratio. Heavy duty steel grill, trapezoid cabinet design.
